

# SOLAR PANEL

## SOLCHGR-12-1200

### *Generate Electricity with Sunlight.*

This photovoltaic module generates DC electricity when exposed to sunlight or other light sources. This solar panel is designed for 12-volt battery chargers.

The solar panel is supplied with an integral switching regulator (90% efficiency) and a reverse current blocking diode.

### **SPECIFICATIONS**

Rated Power	14 Watts
Current	1200 mAmps
Voltage, nominal	13.00 Volts

### **PHYSICAL CHARACTERISTICS**

Height	17" (431.80 mm)
Width	11" (279.40 mm)
Depth	1.0" (25.40 mm)
Weight	12 lb (5.46 kg)
<b>Mounting:</b> U-bolt provided for mounting to 2" (50.8 mm) diameter pipe (pipe not supplied).
